**San Diego – October 20, 2009** – [TV Ears](#), a manufacturer of doctor-recommended TV listening solutions that have helped more than 500,000 people, today announced that it ranked number 176 on Deloitte's 2009 Technology Fast 500™ list.

Deloitte LLP's rankings of technology, media, telecommunications, life sciences and clean technology companies in North America are based on percentage of fiscal year revenue growth from 2004 to 2008.

"We're honored to be in company with such a terrific group of innovative organizations that service a wide range of markets across the United States," said George Dennis, CEO of TV Ears. "We've had great success this year, and that only fuels our continued drive to develop useful tools that help individuals with hearing difficulties enjoy their TV experience and – as important – ensure their families can enjoy it with them."

TV Ears grew 769 percent over the most recent five-year period, and credits its success to the widespread adoption of its doctor-recommended TV listening devices in retail outlets such as Costco, Radio Shack, CVS Pharmacy and QVC as well as its online and hearing store channels.

"Technology Fast 500™ recognizes innovative companies that have broken down barriers to success and defied the odds with their remarkable revenue growth," said Phil Asmundson, Vice Chairman and U.S. Technology, Media and Telecommunications leader, Deloitte LLP.
